Education

Dr Bhimrao Ambedkar University **July 2025 – July 2029**

Bachelor of Engineering in Computer Science *Agra, Uttar Pradesh*

Relevant Coursework

- Data Structures
- Algorithms
- Artificial Intelligence
- Software Engineering
- Operating Systems
- DBMS
- Cybersecurity
- Computer Networks

Experience

Cybersecurity & Law Enforcement Intern **July 2026**

Amroha Police, Government of Uttar Pradesh *Amroha, Uttar Pradesh*

- Analyzed 15+ real-world cybercrime case studies under the mentorship of IPS Shri Lakhan Singh Yadav (SP, Amroha) and senior cyber experts, covering threat vectors, social engineering, fraud patterns, and incident-response workflows.
- Applied OSINT and digital-intelligence methodologies for online footprint analysis, information gathering, cyber-threat investigation, and law-enforcement-oriented intelligence workflows.
- Studied practical cybersecurity investigation workflows spanning cyber forensics, digital evidence, legal frameworks, human factors, and cybercrime prevention.

Cybersecurity Intern — Cyber Smart AI Prime Internship **August 2026**

NIIT Foundation, Cyber Suraksha Plus Program *Agra, Uttar Pradesh*

- Applied cybersecurity concepts across cryptography, secure communication, network security, Linux security, wireless security, and AI-driven cyber-fraud detection through a 4-week Cyber Smart AI Prime Internship
- Analyzed secure network architecture and access-control mechanisms, including zone-based firewall policies, wireless security, authentication, and administrative-access security for enterprise network environments.
- Secured a simulated TechNova Solutions wireless network through static WAN configuration, secured SSID deployment, MAC-based access control, strengthened router administrative credentials, and secure network configuration.

Projects

GEOINT-X | *Python, Flask, React.js, JavaScript* **September 2026**

- Built a visual geolocation, OSINT, and image-forensics intelligence platform that combines image analysis, geographic indicators, and structured evidence to support location-investigation workflows.
- Developed an integrated intelligence interface for organizing visual evidence, geographic context, and analytical outputs into systematic GEOINT/OSINT reconnaissance workflows.

InfoTrace OSINT Dashboard | *Python, Flask, HTML, CSS, JavaScript* **June 2026**

- Built a privacy-first passive OSINT dashboard integrating WHOIS, DNS enumeration, and HTTP metadata to collect and correlate domain and infrastructure intelligence
- Engineered a modular reconnaissance pipeline with input validation, data normalization, passive collection modules, and explainable risk analysis for structured, evidence-based assessment.

Technical Skills

Languages: C/C++, Python, Java, JavaScript, TypeScript, Go, SQL, Bash
Web & Backend: HTML5, CSS3, React.js, Node.js, Express.js, Flask, REST APIs
Tools & platforms: Git, GitHub, Docker, Linux, GCP, CI/CD, Jupyter, Burp Suite, Nmap
Cybersecurity: OSINT, Network Security, Vulnerability Assessment, OWASP Top 10, Digital Forensics, Wireshark, Autopsy

Leadership / Extracurricular

Aspire Leaders Program **February 2026**

- Aspire Institute — Selected for a global leadership program featuring AI, innovation, leadership development, and curriculum from Harvard faculty.

Student Committee Member – ICFCSAI **September 2025**

- Coordinated paper submissions, author communication, and technical logistics across 8 AI-focused conference tracks, including AI/ML and Cybersecurity.
